Who are our customers and how happy are they?

Column	Meaning
customer_id	Unique ID for each customer
phone_number	Phone number (anonymized)
segment	Type of customer (consumer / smallbiz)
monthly_spend	How much they pay per month
tenure_months	How long they've been with TelcoX
plan_type	The plan they are on (prepaid, unlimited, enterprise)
nps_score	Satisfaction score (0–10)
churn_6mo_fla	1 = churned in last 6 months, 0 = stayed

Use this file to identify patterns of churn — e.g., Do customers with low tenure

How do customers interact with the call center?

Column	Meaning
call_id	Unique call reference
customer_id	Which customer made the call
call_timestamp	When the call happened
call_duration_sec	Length of the call
call_reason_tag	Reason for the call (billing, network, device, up
agent_id	Which support agent handled the call
resolved_flag	Was the issue resolved? (1 = yes, 0 = no)
hold_time_sec	Time spent waiting
transfer_count	Times the call was transferred

Useful for checking whether unresolved issues or long wait times lea

Did customers face network issues?

Column	Meaning
event_id	Unique event reference
cell_id	Cell tower ID where issue occurred
event_timestan	When the issue happened
event_type	Type of issue (latency, packet loss, low speed)
loss_percentag	% of data packets lost
avg_latency_m	Delay in data transmission

Poor network quality is one of the top churn drivers in telecom.

What happens when customers come to our stores?

Column	Meaning
visit_id	Unique store visit record
customer_id	Which customer visited
store_id	Store location
visit_timestam	When they visited
visit_duration_	How long they stayed
issue_type	Reason for visit (billing, device swap, plan change, support)
purchase_valu	Did they spend money? (amount in $)

Helps identify whether store experiences help retain customers or not.
